

ALL players - including returning participants - must use the join link for this year's campaign. (See game plan for your participant's join link.)

Returning players **must** use that link to get connected and also to copy over old invites.

When the returning guys click it, they'll enter their email address, and it will pop up and say profile found, login (they'll click on that link and login)

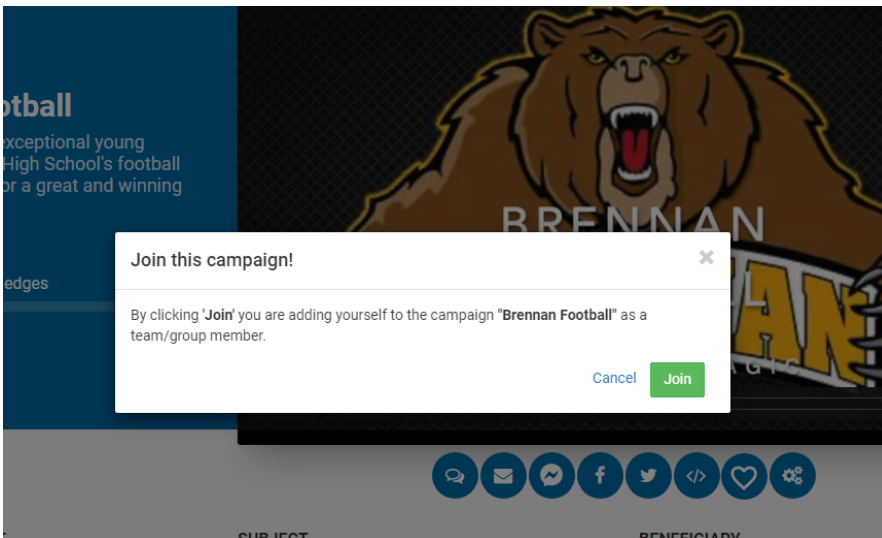

The screenshot shows a registration form with the following fields and status:

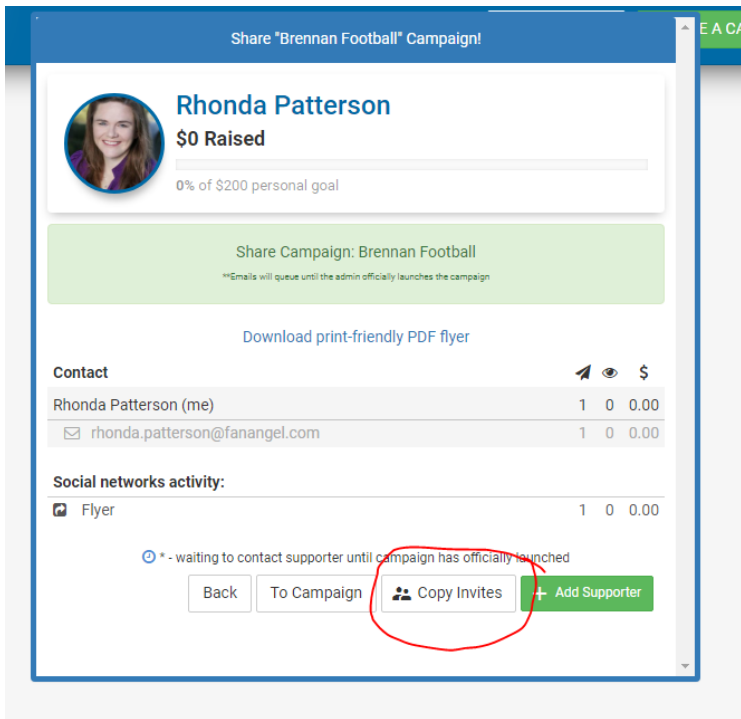

- DISPLAY NAME**: Empty field with a red exclamation mark icon.
- EMAIL**: Field containing "rhonda.patterson@fanangel.com" with a green checkmark icon.
- PASSWORD**: Empty field with a red exclamation mark icon.
- MOBILE (OPTIONAL, BUT PREFERRED)**: Empty field with a green checkmark icon.

Below the email field, there is a red message: "Looks like you already have an account - great! Just click [login](#) to authenticate and then enter your supporters' email addresses."

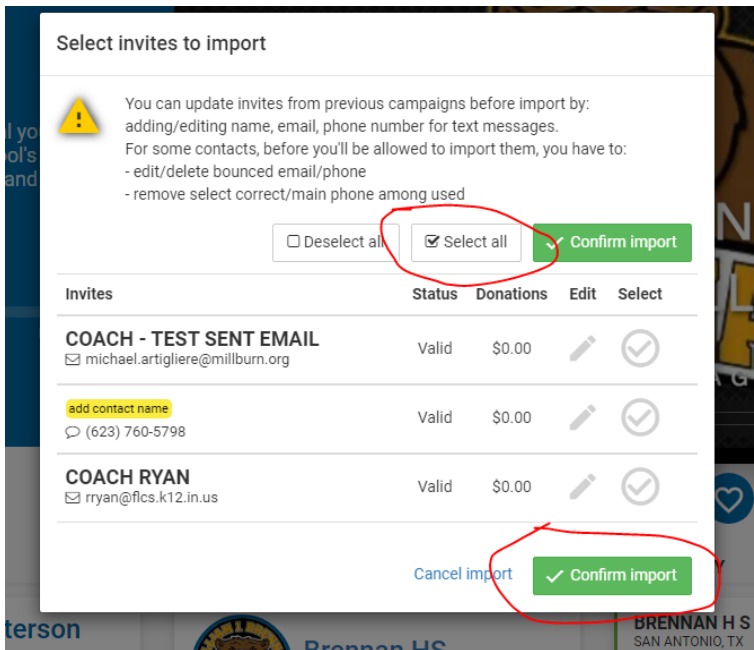

Then, this will pop up, they'll click join

The next screen will be the area that allows them to add contacts - returners will click on copy invites to see everyone they had last time

Then, they will click on the "select all" (or individual contacts they choose), then click confirm import at bottom.

They should then be all set!
